SUMMARY

Computer Engineering graduate (GPA 3.91) specializing in Data Science, Machine Learning, and Large Language Models (LLMs). Experienced in building LLM-powered applications using LangChain and Retrieval-Augmented Generation (RAG), designing ETL pipelines with Apache Airflow, and deploying ML models as scalable APIs using Flask. Strong analytical thinker with hands-on experience in data engineering, workflow automation, and AI-driven system development.

WORK EXPERIENCE

PT. Citra Niaga Teknologi, Bandung

Jul – Aug 2024

Data Engineer Intern

- Improved data processing efficiency by developing and automating ETL pipelines using Apache Airflow, reducing manual workload and error rates in data migration processes.
- Workflow Automation using n8n to automate various workflow tasks, including data validation, notification triggers, and handling, ensuring smooth data migration processes.

PT. Telekomunikasi Selular, Bandung

Feb – Jun 2025

Service Quality Assurance Intern

- Analyzed and visualized 2023 ticketing data using Python and Excel to identify recurring service issues and performance trends.
- Built interactive dashboards using Power BI to support decision-making in service quality evaluation.
- Developed an internal procurement web application using Laravel and JavaScript, improving internal request processing efficiency.

PT. Dicoding Akademi Indonesia, Bandung

Oct – Present

External Reviewer

- Reviewed and evaluated student project submissions based on established rubrics and technical standards.
- Provided clear, constructive technical feedback to improve code quality, functionality, and best practices implementation.
- Tested application features to ensure compliance with project requirements and identified bugs or logical issues.
- Maintained objective and consistent assessments while meeting review deadlines and quality standards.

EDUCATION

Universitas Pendidikan Indonesia, Bandung

Aug 2022 – Jan 2026

Bachelor of Computer Engineering

GPA 3.91/4.00

Achievements:

- 2nd Best Mechatronics Final Project - Dies Natalis TEKKOM 2024
- 3rd Best Consultation Project Final Project - Dies Natalis TEKKOM 2024
- Completed Bachelor's degree in Computer Engineering in 3.5 years, reflecting consistent academic performance, discipline, and effective workload management.

Coding Camp by DBS Foundation, Bandung

Feb – Jun 2025

Machine Learning Engineer Learning Path

Achievements:

- 100 Top-Scoring Students in Soft Skill Assignment 7
- 600 most active students in the ILT session
- Students completing all mandatory classes as of June 4, 2025
- Active team member who became the best presenting group in peer review session

ORGANIZATIONAL EXPERIENCE

HIMPUNAN MAHASISWA TEKNIK KOMPUTER UPI Kampus Cibiru	
<i>Staff of Religion Department, Executive Department</i>	Feb 2023 – Jan 2024
Organized and executed departmental programs and initiatives.	
<i>Staff of Media and Information Department, Executive Department</i>	Feb 2024 – Jan 2025
Organized and executed departmental programs and initiatives.
